DETAILED ACTION

Preliminary Amendment

1. The Preliminary Amendment filed on December 21, 2005 has been entered in the above-identified application. Claims 3, 4, 6-11, and 14-16 have been amended.

Claims 1-16 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 6, 7, and 9-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamamura et al. (US 2003/0059708).

Yamamura et al. disclose a photo curable composition used in 3D photo fabrication and the process of making such a 3D object (Para. 001). The composition comprises a crosslinkable compound that crosslink by irradiation in the presence of a cationic photopolymerization initiator. Examples include epoxy compounds (Para. 0028 and 0031). The composition further comprises elastomer particles having an average particle size of 10-700nm to provide excellent impact strength. The amount of the elastomer particles is between 3-30 weight % (Para 0112 and 021). All limitations of claims 1, 2, 6, and 9-15 are disclosed in the above reference.

Allowable Subject Matter

3. Claim 4, 5, 8, and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
